

# FREE PROPERTY TAX PLANNING CHECKLIST

Find out how to save tax on your most valuable asset

Your business premises is probably one of the most valuable assets you own.

The problem we find in working with businesses is that business premises are easily left exposed to risk and significant tax charges. What makes this worse, is the fact that a lot of business owners aren't aware of this before it's too late.

You can find out if you might have any potential problems by completing the premises tax planning checklist below. If you answer yes to any of the questions, your property is most likely exposed to risk, or significant tax charges (or both!). If this is the case, just click 'get recommended next step' at the bottom of this page, and we'll be happy to provide a recommendation on the next step towards protecting your most valuable asset.

---

Is your business property owned in a trading entity (i.e. in a trading partnership or in a trading limited company?)

---

Is your premises owned personally by an individual or individuals?

---

Are you planning to buy or sell a business property within the next 3 years?

---

Are you planning to develop or improve your premises in any way that will significantly increase its value?

---

What is the approximate current market value of your premises?

---

If you have answered yes to any of the questions, just forward this form complete onto us and we'll be happy to provide a recommendation on the next step towards protecting your most valuable asset.
